POSITION OF THE COAL COMPANIES.

Hopes of forming a combination of the ceal companies have been well-nigh abandoned by prominent operators. The differences between the companies are said to be as wide as ever before, and the obstacles to an agreement are believed to be insurmountable. No general meeting of the officers of the companies has been held, although ramors of meetings have been circulated freely. It was reported on Monday that a meeting would be held yesterday and that Henry would be held yesterday and that Henry Packer, of the Lehigh Valley Company, would be present. It is understood that Mr. Packer has consulted with the individual operators of that distinct in regard to the course to be pursued by the company. He was in the city yesterday, and it is said that the Lehigh Valley Company will consent to a periodical suspension of mining at times and for periods to be fixed by itself. The susponsion must be arbitrary and no discretion is to be left to officers of other companies. To this proposal few, if any, of the companies, would be willing to accede. The position said to be a sumed by the Pennsylvania Raliroad Company would interfere seriously with any agreement that other companies might make. That commany is said to be extremely fealous of the Reading Company, and in opposing any combination is believed to affiliate with the Lehigh Valley Company. Since the combination of 1878 dissolved, the Reading Company has secured raitroad advantages that have awakened the Jenicusy of the Pennsylvania Raliroad. The Lehigh Valley is seeking an independent line to Philadelphia. Bath companies, it is said, oppose combination as d'strumental to their own schemes.

MORMONS ARRIVING FROM EUROPE.

N. C. Of these innaigrants, who are the say to Utah. Of these innaigrants, who are the say in families, one-half are from Scaodanavia and the comminder from Great Britain. They are rugged and helsely looking and are said to be industrious and hard-working. Most of these from England are mechanics, the Welsh are farm faborers and miners and the others farmers. Missionary Raiph Smith, when asked what was thought of Secretary Evart's consequence in the foreign governments in regard to Marman emigrants, said he did not think that such a consumination would have any effect. "As to polygomy," he said, "we neither advise it, nor do we advise against its practice; that is a matter of conscience between those who join the Latter Day Saints and their God."

there are about 10,000 Mormon converts still re-abiling in the different missions in Europe, and to next colony is expected text month. Those to arrived yesterday were carted for Sair Lake City last evening.

THE AMERICAN INSTITUTE FAIR.

PREPARATIONS FOR THE OPENING TO-DAY-SOME OF THE AFTRACTIONS THAT ARE PROMISED. The interior of the building at Third-ave, and Sixty-third-st., to be occupied for the next two months and a half by the American Institute Fair presented a scene of confusion yesterday. Grimy machines of all kinds which were being placed in position; acores of huge glass cases in which all sorts of articles are to be arranged were being grouped symmetrically; sounds of hammers were heard all around, and the visitor was bewildered by the noise and bustle. To-day, at 2 p. m., the fortyeighth annual exhibition of the American Institute of the City of New-York will be opened by the president of the trustees, Nathan C. Ely, who will deliver an address. The exhibitors to whom space has been assigned have been very late this year, and the prospect is that it will be several days before the Fair is in good running order. No spaces will be held for more than forly-eight bours after the fair opens, and after that thus the unclaimed portions of the buildings will be allotted to those whose applications for room are on file. Workmen were busy yesterday on the temporary elevated railway station in front of the building, which was found to be so great a convenience last year. Arrangements have been made by which for 50 cents one can buy a ticket for the Fair with two coupons. The coupons are good for a trip and return on the elevated road from any Easter West Side station with a change of cars, if necessary, at the Battery. After to-day the Fair will open at 0 a. m., and will cluss at 10 p. m. Downing's Nintu Regiment Band will give afternoon and evening concerts. It is expected that there will be a fine hortsucharial display in October. In the centre of the building a fountain has been placed, surrounded by a pretty bank of ferns and flowers. One of the interesting features of the Fair will be the macadines run by compressed air power. A thirty-horse power engine will use air as its motor, and numerous experiments will be made. Educor will have several of his patents on exhibition, and there will be an abundance of other interesting articles displayed, from a house elevator and a horse rake to an electric pen. The usual medials will be awarded at the close of the Fair. dent of the trustees, Nathan C. Ely, who will de-

THE CASES IN LITIGATION. THE MAYOR REQUIRED TO SHOW CAUSE WHY JUDG-MENT SHALL NOT BE GIVEN TO MB. NICHOLS-

The complications in the case of Commissioner Nichols are not yet cleared up. John D. Townsend, his connsel, obtained vesterday from Judge Westbrook, in Supreme Court, Chambers, an order to show cause why judgment should not be given Mr. Nichols declaring null the act of the Mayor in removing him. This application was based upon the ground that the Mayor's return to the writ of certiorari had not been filed in time to allow the notice of motion in the case for the third Monday of this mouth. It was averred that if the Mayor had above the order of Judge Westbrook, directing the earth to give an even surface and the tau-bank class | theram had not been filed in time to allow the notice
